What do you do the day after the world turns inside out? When people start gaining paranormal abilities once limited to the province of comic books, the world reels. Forced into a camp for their own protection, several victims of the Event strive to survive and find a new normal. Can they turn a once abandoned military base into a thriving city of the future in just three months? The camp's commandant wants them to fail, and he's not the only one. A small core group of determined individuals refuse to let anyone get in their way. The lives of too many people depend on them. *Freak City* is the first book in a new series of books that will depict a rich universe containing innovative twists on superheroes, aliens, lost societies, hidden communities, immortal power brokers, political conspiracies, even vampires, dragons, and other creatures of myth and legend. When they opt to use their powers and talents to turn a marginally livable Army base into a thriving city...
