A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

FOOD SAFETY ISSUES AND TRADE - AN INDIAN PERSPECTIVE

LAP LAMBERT Academic Publishing. Paperback. Book Condition: New. Paperback. 52 pages. Dimensions: 8.7in. x 5.9in. x 0.1in. The major question that this book analyzes is, Why hasn't India marked its presence in the Global Food market given its an agrarian economy? The book starts by giving a brief overview of Indian agriculture sector post 1991. It further talks about the recent issues related to Food safety and standard and its effect on Indian Exports of agricultural commodities. Given the recent awareness about health and growing concern about good quality food, the international standards set are high which are difficult to match by developing countries, like India. Nevertheless, some developed countries have set the standards higher than the international standards. In this changing global landscape, India established FSSAI, Food Safety and Standard Authority of India with the sole aim to make Indian exports competitive in the world market. This book analyses the effect of Food Safety and Standard Act on three major commodities, Wheat, Groundnut and Cotton, for the period 2002 -2012. Further, mentions the challenges India is facing and will have to face in the future and also gives policy recommendations. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
